

Workers' Liberty

Labour councillors should refuse to implement the Tories' cuts

We the undersigned oppose the cuts to jobs and services being pushed through by the Lib Dem-Tory coalition government. We want a government which will tax the rich and the banks, scrap Trident and cut military spending, not cut jobs and services. We call on our Labour councillors to join with trade unions and community groups to fight the cuts, and to refuse to implement them. Labour councillors should not cooperate with the government in making cuts.
